Notice of Employment

Position: Field Technician

Supervisor: EWR Field Supervisor

Opening Date: August 12th, 2025

Closing Date: August 26th, 2025

Employment Type: Full-Time

The Field Technician will support installing and maintaining small-scale solar projects on the Wind River Reservation. This role involves data collection, addressing issues in the field, and other duties as assigned. They will ensure the successful implementation and operation of solar systems, contributing to the project's overall success. On-the-job training will be provided.

Qualifications:

- Install solar panels, mounting, wiring & connections to system components
- Must be able to lift 50 pounds regularly & repetitively
- Collect data on system performance, site conditions & relevant metrics
- Address issues that arise in the field, respond appropriately & get support if needed
- Perform additional tasks as assigned by the Field Team Lead or Field Supervisor

Minimum Qualification: High School Diploma or equivalent & pass drug test

Certificates/License: Must possess a valid Wyoming Driver's License

How To Apply: Completed Eastern Shoshone Tribe Applications can be submitted at the ES complex, the EWR office or emailed to letara.lebeau@energizewindriver.org
